EDUCATION

Madhav Institute of Technology & Science (MITS), Gwalior

Bachelor of Technology (B. Tech) in Information Technology

- CGPA: 6.7 / 10 (as of 2025)

Gwalior, India

2024 – May 2028 (Expected)

EXPERIENCE

AI Developer – AI Synergy Hackathon

Gwalior AI Summit • Top 5 Finish out of competing college teams across india

IIITM Gwalior

March 2026

- Architected and shipped **SmartSathi** — a production-grade **multilingual AI tutoring chatbot** in under 24 hours, integrating Gemini API, OpenAI GPT-4o-mini, and Web Speech API into a unified full-stack system.
- Secured Top 5 position** competing against teams from colleges across india at Gwalior AI Summit 2026.

Web Developer – MITS College Event

Madhav Institute of Technology & Science (MITS)

Gwalior, India

2025

- Designed and developed the **official event website** for a college technical fest, handling end-to-end development including UI design, event schedule, and registration flow.
- Built using **React.js** and **Node.js** with a responsive layout ensuring seamless access across 500+ student visitors.

Open-Source Contributor

GitHub • Active Contributor

Remote

2025 – Present

- Actively contributed to open-source repositories on GitHub, submitting **pull requests, bug fixes, and feature improvements** across web development projects.
- Engaged with the developer community through **code reviews, issue triaging**, and documentation to maintain project quality.

PROJECTS

SmartSathi – Sahayak | React.js, Node.js, Express.js, Gemini API, OpenAI API, Web Speech API [GitHub](#)

March 2026

- Engineered a **multilingual AI tutoring chatbot** supporting Hindi, Marathi, Tamil & Bengali, with a **cascading model fallback chain** (Gemini 2.5 Flash → Gemini 2.0 → GPT-4o-mini) ensuring **zero-downtime responses**.
- Built a **Visual Guidance Engine (VGE)** using Gemini's multimodal vision API to analyze phone screenshots and return **structured step-by-step JSON guidance** with annotated UI elements, safety alerts, and multilingual instructions.
- Architected a server-side **in-memory news caching system** with a **1-hour TTL** serving live AI-generated UPI scam summaries across **5 languages** while minimizing redundant LLM API calls.

Hospital Bed Finder | React Native, Expo, Supabase, PostgreSQL, PostGIS, OpenStreetMap [GitHub](#)

October 2025

- Engineered a **Dual-Source Hospital Discovery Engine** using Promise.allSettled to query OpenStreetMap Overpass API and a custom PostGIS Supabase RPC in parallel, delivering **sub-second search responses**.
- Architected a **Real-Time Staff Portal** leveraging Supabase Realtime subscriptions with **Role-Based Access Control** enforced via Row-Level Security for live bed-admission and emergency dispatch events.
- Designed an **Emergency Broadcast System** enabling patients to dispatch high-severity resource requests (ICU, Ventilator, Oxygen, Blood) with a **PENDING → RESOLVED lifecycle** managed through an atomic Supabase RPC.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), C, C++, Python

Frontend: React.js, React Native, Expo, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

AI & APIs: Gemini API (multimodal), OpenAI API (GPT-4o-mini), Web Speech API

Databases & BaaS: MongoDB, MySQL, PostgreSQL, PostGIS, Firebase (Auth, Firestore), Supabase (Auth, Realtime, RLS)

Developer Tools: Git, GitHub, VS Code, Postman

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Computer Networks

ACHIEVEMENTS

- Gwalior AI Summit – AI Synergy Hackathon (March 2026):** Secured **Top 5** for building SmartSathi — an AI-powered multilingual chatbot with real-time UPI scam detection, competing against college teams across india.
- Open-Source Contributor:** Actively contributed pull requests, bug fixes, and documentation improvements to open-source web development repositories on GitHub.
- College Event Web Developer:** Built and deployed the official website for a MITS technical fest, serving 500+ student visitors with a fully responsive React.js + Node.js stack.
