EDUCATION

Madhav Institute of Technology & Science (MITS), Gwalior
Bachelor of Technology (B.Tech) in Information Technology

2024 – May 2028 (Expected)

EXPERIENCE

Software Development Intern – AI & Web Development

May 2026 – Present

AGS Cybertech and Software Solution Pvt. Ltd.

- Re-engineered RNRTV (rnrtv.selfiewise.com) from a WordPress-based platform into a scalable **full-stack application**, to frontend, backend, database integration, and **end-to-end deployment** for a live production environment.
- Enhanced platform security and deployment reliability by implementing **CORS**, **CSP**, and secure database practices, contributing to **production-ready deployments** and mitigating common **OWASP security vulnerabilities**.

Hackathon Finalist – AI Synergy Hackathon (Top 5 Finish)

March 2026

Gwalior AI Summit 2026 · IIITM Gwalior

- Architected and delivered **Sahayak**— a production-grade **multilingual AI tutoring chatbot** in under 24 hours, integrating Gemini API, OpenAI GPT-4o-mini, and Web Speech API into a unified full-stack system.
- Secured **Top 5 position** out of college teams competing from across India, demonstrating rapid prototyping ability and cross-functional technical execution under time pressure.

PROJECTS

Sahayak | *React.js, Node.js, Express.js, Gemini API, OpenAI API, Web Speech API* [GitHub](#) | [Live Demo](#)

March 2026

- Built a **multilingual AI chatbot supporting 4 regional languages** (Hindi, Marathi, Tamil, Bengali), providing digital literacy assistance and **real-time UPI scam detection**.
- Integrated **Gemini Vision and OpenAI APIs** for screenshot analysis, enabling users to upload phone screen images and receive precise, contextual guidance on next actions.
- Architected a **resilient backend** with an automated AI model fallback chain and an intelligent caching layer, ensuring high availability while optimizing API cost and latency for live scam-alert generation.

Hospital Bed Finder | *React Native, Expo, Supabase, PostgreSQL, PostGIS, OpenStreetMap* [GitHub](#)

October 2025

- Developed a **cross-platform mobile application** using React Native and Expo to display **real-time hospital bed** and critical resource availability, helping families reduce time-to-hospital during medical emergencies.
- Engineered a **high-performance geospatial search system** using PostgreSQL, PostGIS, and OpenStreetMap to simultaneously query map data and hospital databases, delivering fast location-based hospital discovery.
- Implemented a **one-tap emergency request workflow** with Supabase Realtime, enabling live synchronization of patient requests and automated status tracking from pending to resolved.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, C, C++, SQL

Frontend Development: React.js, React Native, Expo, JSX, HTML5, CSS3, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful APIs, Authentication, API Integration

AI & APIs: Gemini API (Multimodal), OpenAI API (GPT-4o-mini), OpenRouter API, Web Speech API, YouTube Data API

Databases & BaaS: PostgreSQL, PostGIS, MongoDB, MySQL, Supabase (Auth, Realtime, RLS), Firebase (Auth, Firestore)

Cloud, Deployment & Developer Tools: Vercel, VPS Server, Linux Basics, Deployment, Git, GitHub, VS Code, Postman

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Computer Networks

ACHIEVEMENTS & CERTIFICATIONS

- Gwalior AI Summit – AI Synergy Hackathon (March 2026):** Secured **Top 5 finish** for building Sahayak — an AI-powered multilingual chatbot with real-time UPI scam detection, competing against college teams across India.
- College Event Web Developer:** Built and deployed the official website for a MITS technical fest, serving **500+ student** visitors with a fully responsive React.js + Node.js stack, improving page responsiveness and load efficiency by **2x**.
- Web Development Certification:** Completed the [Complete Web Development Course](#) by Hitesh Choudhary on Udemy, covering full-stack web development fundamentals.
